

REVIEW OF MARKETS
FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain,
Cotton, Provisions, Etc.

New York, Feb. 10.—The market left off with advances in the leading specialties and prominent railroads, with the tone unsettled. The dealings were largely professional, and were in the nature of evening contracts over the triple holiday. The early trading was practically featureless. Commission houses had but few orders, and the trading for London account was in a very moderate volume without any marked tendency.

The railroads were inclined to sag in the early trading. St. Paul's earnings increase of \$60,000 falling below expectations. Aggressive buying of Burlington dissipated the early hesitancy and had a favorable influence on the market generally. The coalers showed particular strength, as did New York Central, Pennsylvania and the Grangers generally. The usual refunding stories, which lacked official confirmation, were revived in connection with Burlington's strength. Pacific Mail recovered an early decline, which was attributed to a rumor that the St. Paul Subsidy bill was unlikely to pass. Sugar displayed strength, while Tobacco was weak most of the day. The further successes about Manila had a sentimentally beneficial influence on values. Prices rose until delivery hour, when there was a brisk selling movement, but stocks were so well taken that rally ensued in some quarters in the final decline, and the market closed over the holidays to be reopened Tuesday morning. Meanwhile the bank statement will appear and much importance attaches to its character.

Railroad and miscellaneous bonds were in good request throughout the day, with gains of 1/2 to 1/4 in some issues. Total sales, \$3,500,000.

United States old 4's registered advanced 1/4, and the 5's registered 1/4 in the bid price.

The total sales of stocks were 463,100 shares.

NEW YORK STOCK MARKET.
